

- Unroll Cable tool, and locate pin plug end.
- Carefully align the 7 holes in the plug with the 7 pins in the RX-91 or RX-92 Receiver, and push on firmly.
- The LED end can freely hang down in the doorway, and LED's are visible from both sides.
- Display is controlled by Dipswitch #4.
Set **OFF** to view relay status, or set **ON** to view Signal Strength
- When set-up is complete, simply unplug cable tool, roll up and save for the next installation.
