

# RESTROOM CONTROLS KITS

## CX-WC: RESTROOM CONTROL KITS

Camden Door Controls offers an industry-leading range of packages designed specifically for the control of automatic doors in restroom applications. These kits feature a number of innovative and exclusive products that are not available elsewhere, including the CM-AF500 single gang annunciator (providing 'Occupied When Lit' signage that is only legible when unit is lit) CX-33 advanced logic relay (providing exclusive operation modes for restroom control) and Aura™ illuminated push plate switches (that combine 'Occupied When Lit' annunciation and door activation in one product).

**Note: Restroom Control Kits may not include all 'Push to Open' push plate switches that may be required for a complete installation. Please reference the specific products sold in each kit.**

### Specifications

Current Draw:	CX-WC10: 320mA
	CX-WC11: 360mA
	CX-WC12: 360mA
	CX-WC13: 540mA
	CX-WC14: 830mA
	CX-WC15: 720mA
	CX-WC16: 460mA
