UL Solutions permits the reproduction of the material contained in Product iQ subject to the following conditions: 1. The Guide Information, Assemblies, Constructions, Designs, Systems, and/or Certifications (files) must be presented in their entirety and in a non-misleading manner, without any manipulation of the data (or drawings). 2. The statement "Reprinted from Product iQ with permission from UL Solutions" must appear adjacent to the extracted material. In addition, the reprinted material must include a copyright notice in the following format: "©2026 UL LLC."

# Special Locking Arrangements Certified for Canada – Component

See General Information for Exit Signs and Exit Appliances Certified for Canada – Component

The devices covered under this category are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. THE FINAL ACCEPTANCE OF THE COMPONENT IS DEPENDENT UPON ITS INSTALLATION AND USE IN COMPLETE EQUIPMENT SUBMITTED TO UL SOLUTIONS.

## USE

This category covers locks and components intended for use in Listed special locking arrangements.

## CONDITIONS OF ACCEPTABILITY

Consideration is to be given to the Conditions of Acceptability specified in the individual Reports when these components are employed in the end-use equipment.

## REQUIREMENTS

The basic standard used to investigate products in this category is CAN/ULC 533, "Standard for Egress Door Securing and Releasing Devices."

## UL MARKING

Components Recognized under UL Solutions Component Recognition Program are identified by markings consisting of the Recognized company's identification and catalog, model, or other product designation. In addition, components produced under the UL Solutions Component Recognition Program will also bear the

Recognized Component Mark for Canada .

The Listing, Classification, or Certified Mark of UL Solutions is not authorized for use on, or in connection with, Recognized Components. Only those components that actually bear the "Marking" should be considered as being covered under the Component Recognition Program.
